Learn. Globalization is not just an economic phenomenon, but a political, cultural, military, and environmental one as . Initsinitialphase,worldgovernancewasabletodrawonthemesinheritedfr But as globalization progresses and the number of interdependencies increases, the global level is also highly relevant to a far wider range of subjects. In turn, the economic development of China and India has created a strong demand for energy, food and minerals, which has led to the accumulation of enormous reserves by the countries that export petroleum, gas, minerals and agricultural commodities.
