Respondent: Identifies events and conditions leading to the
problem. As the semester unfolded, students engaged in three
guided independent research projects, the results of which
they presented publically.

It is apparent that student learning was enhanced in this course in ways that

On the afternoon of day 3 each group of students explained the
question they investigated to the other groups as well as the
results obtained and the conclusions drawn, with the aid of
the presentation slides they prepared during the workshop. For
example, most students would prefer to grapple with the
ethically charged question "Would you have supported or
protested the Vietnam war effort?"

Caster Semenya, a world class track and field athlete, was subjected to medication.
teacher's intention is to have students go beyond recall and
demonstrate understanding of information organizing material
mentally.
