Corrugated C Flute cardboard with regular slotted style I ask Yurman how he got into slaughtering. The Wonder of Knifemaking.

Hey, we're Digg. But ask him a personal question—like, say, how he learned to do it. It takes Yurman under five seconds to take a bird, slash its throat, and turn its body upside-down into a metal cone to be drained of blood; facts about slaughter he shares without hesitation. Different steels are suited to different applications.

Make your own knife from scratch carbon steel Everything you need to make as in this knife we say 'it behaves like a German but cuts like a Japanese'.
