Click on an option below to access. It did so through a worldwide of regional and bilateral alliances, like NATO, all operating under the shade of America's nuclear umbrella. For the first time in the modern age, the world's most powerful state can operate on the global stage without the fear of counterbalancing competitors.

Histheorydoes, after all, assume that states will balance against a preponderant power. The resolution of that debate may determine whether the promise of American hegemony will be fulfilled in the legacy it left behind, or whether its perils will persist in a quixotic to sustain that hegemony after its historic moment had passed – that moment, as Irish poet W. In fact, HST demonstrates that their needs theoretical requirements for world leadership that China should strive to achieve in order to gain hegemonic status that include whether China has the will to lead and the ability to lead.
